

AQUARIUM BEGINNER'S GUIDE

Welcome to AquaMind!

This free guide covers the essentials for setting up your first freshwater aquarium:

- 42 Choosing the right tank size (5-20 gal recommended)

- 42 Essential equipment: filter, heater, light, test kit

- 42 Cycling your tank before adding fish

- 42 Best fish for beginners (betta, guppy, danio, tetra)

- 42 Low-maintenance plants (Java fern, Anubias)

Happy fishkeeping!
